DETAILED ACTION

Election/Restriction

1. Claims 1-10 are generic to a plurality of disclosed patentably distinct species comprising the distinct ingredients of a first group consisting of second, third and fourth groups, the second group consisting of each crude extract from *Paeonia suffruticosa*, *Cnidium officinale*, *Cinnamomum cassia*, mustard (*Brassica juncea*) and horseradish (*Cholearia aroracia*), the third group consisting of extracts obtained from each crude extract of *Cinnamomum cassia*, cinnamon, mustard and horseradish of the second group and the fourth group consisting of derivatives of the third group. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species or a particular combination thereof (e.g., the combination of five plant extracts from the second group), even though this requirement is traversed.

Please note this requirement is made with particular regard to claim 1 wherein applicant directs the invention to various permutations of ingredients, wherein the composition comprises various botanical member groups. Currently, no claim is generic.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 1654

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37

CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Please note that, as drafted, the claims are essentially unsearchable. Based upon the instant disclosure (e.g., Abstract) and to hasten prosecution, Applicant may wish to rewrite the claims to a singular invention drawn to an insecticide composition comprising the five plant extracts of "group two" or to a composition comprising one of the five plant extracts of "group two".
